

Lockdales' Auction #225 Report:

A Lifetime Private Collection of German Militaria: 8th November 2022

Total prices realised: £114,338 hammer (£141,093 incl. prem.)

536 lots offered. All sold, and most above estimate, attracting fierce bidding throughout. This was the collection of an expert specialist with an eye for original war-time issues, and accordingly the prices were exceptional. There were many unusual and seldom-seen items, but the strength above all was in original uniforms, selling for up to £1600 hammer, and caps up to £1900, most of which sold multiple times above top estimate. The badges also were highly sought-after, the majority being mid to late war base metal issues.

Our two day sale of medals & militaria, weapons, coins, stamps and cards is taking place shortly on 19-20 November, which contains further German military items, as do all our regular bi-monthly sales.
