Valuation Days

We conduct special valuation days at venues all around the UK. No appointment is necessary at such events, and valuations are provided free of charge. We look forward to meeting all our customers in person, and hope to see you soon. We are always keen to consign goods to auction, or to make cash purchases.

Many events will be scheduled throughout the year. Up-to-date details of events are on our website www.lockdales.com

Valuations are available at our Martlesham premises, **please call first to make an appointment.** In the case of high value collections we are happy to send one of our representatives to visit you. We will travel overseas to collect your goods if you have guaranteed that you will consign to our auction, or will accept a purchase offer agreed prior to travel.

Returns Policy

Please inspect thoroughly all lots purchased upon collection or postal receipt. Returns can only be made within 7 days of receipt, with written explanation of the reasons why. Items can only be returned if significantly mis-described, or if proven to be inauthentic when sold as genuine. Bulk lots cannot be returned and thus we strongly advise viewing such lots in person. The nature of what constitutes a bulk lot is determined at Lockdales' discretion. Returned lots will only be accepted if returned in the same condition they were received in. We seek to stress by these terms: that the practices and etiquette of sale by auction are different from those relevant to sale by private treaty. Items in our auction are not sold "on approval". Bidders should be certain of the nature of each lot before bidding. We do not refund postal charges. ***We do not accept any returns on specifically German medals & militaria. These items are considered sold 'as seen' and should only be bought in full knowledge and acceptance of these terms.**

Troop at Isola Point with guns sited round a vulnerable position near the Dockyard. For a long time the Troop was in the thick of the bombing and he could always be seen at one or other controlling or assisting in the firing of his guns. He imbued all ranks of his Troop with the aggressive spirit that was in him. In February of the same year this officer was entrusted with the maintenance of telephone communications of Light A.A. Regiment which included the Dockyard, Delimara and Kalafrana in its area. Repairs to lines were necessary everyday throughout a prolonged period of intensive bombing and the work he was called upon to do was generally in the more vulnerable and dangerous positions. He was untiring in his work and never allowed bombing to interfere with him. It was entirely due to his efforts that the Commanding Officer could keep in touch with all his guns.' 1064	Canada, forgery of an Imperial Bank of Canada \$100 2nd Jan. 1917, EF with 'VOID' punches. This is a specimen of a bank note processed by the Imperial Bank of Iran, Resht, in the year 1925. The bank notes were despatched to London for collection and after payment the proceeds were credited to the accounts of Reshti businessmen. The notes were in denomination of 100 Canadian Dollars, bearing the same serial number and date of issue - January 1917. After a period of time, approximately two years, the Imperial bank of Iran, Resht, received notification that the notes were forged and were instructed to recover the amounts from the sellers. The forgeries were so perfect that not only the Canadian Bank of issue but also their London agents were unable to detect the spurious notes. It is interesting to record that in the year 1925 the rate of sterling was between four and five Tomans, and the U.S. Dollar had a value of between eight to ten Rials.	£70 - £80
